

Users Management Application

This application provides a user management system with the following features:

Features

- Proper state management with Like button
- Edit user details with a modal pop-up
- Remove specific users (frontend only)
- Reflect edited data in the list using state management
- Fetch user data from this [API](#)
- Fetch user avatars from [RoboHash](#)
- **Additional Feature:** Add new users
- **Additional Feature:** Landing page with Next.js router

Users List

The users list is fetched from the following API: <https://jsonplaceholder.typicode.com/users>. Each user has an avatar fetched from [RoboHash](#).

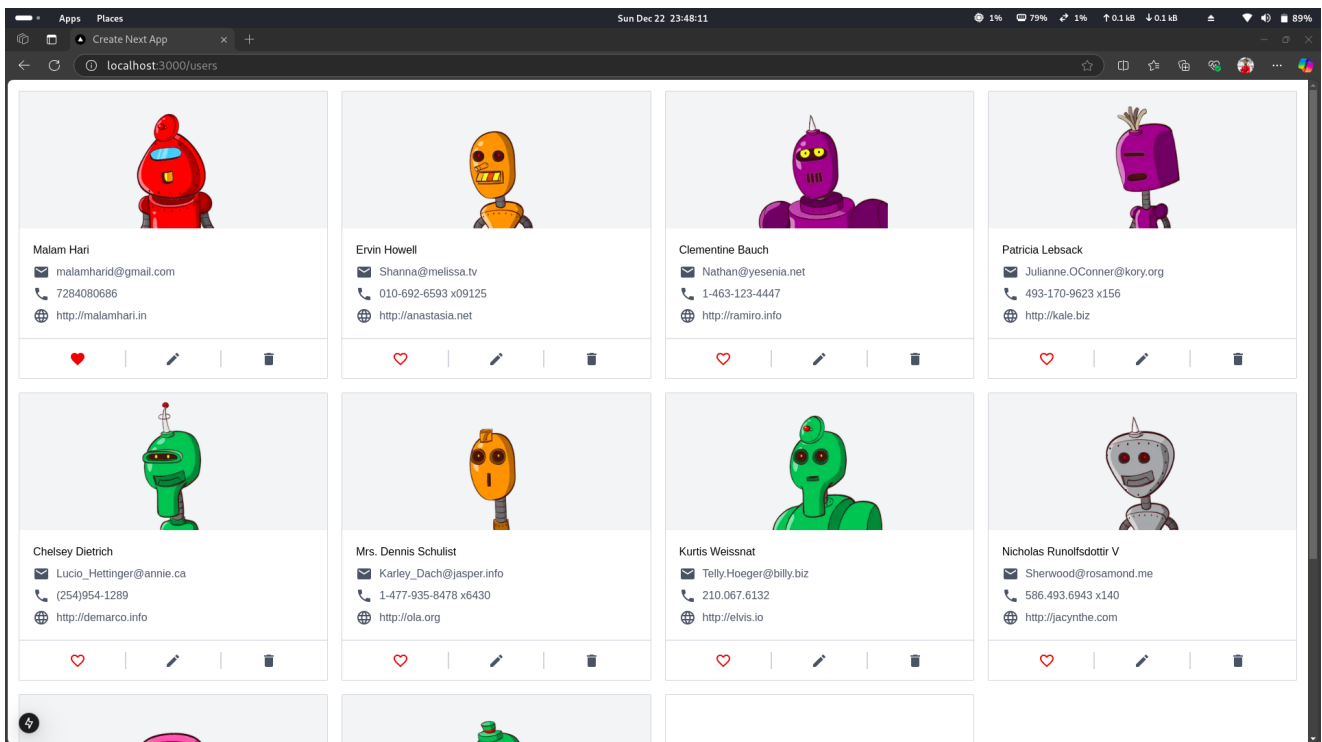

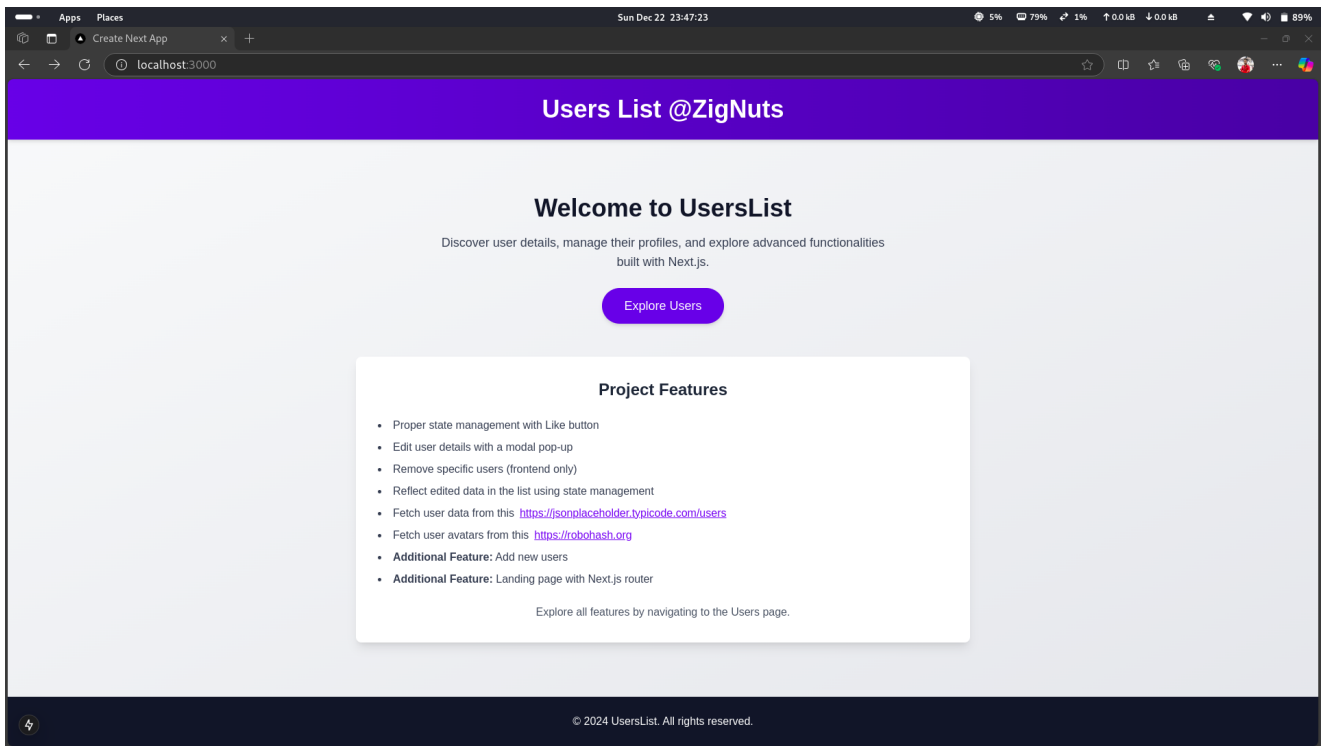

How to Run

1. Clone the repository.
2. Install dependencies using `npm install`.
3. Run the application using `npm run dev`.
4. Open your browser and navigate to `http://localhost:3000`.

Technologies Used

- React
- Next.js
- Tailwind CSS
- Axios
